

IMPORTANT INFORMATION FOR AFTERCARE - SKIN REJUVENATION TREATMENTS

- Discoloration of the treated area will occur within 48 hours post treatment.
- In the instance of flaking of pigmentation and sun spots it will be noticed approximately 10-14 days post treatment.
- **Avoid exposure to the sun and UV light, including solariums, (to the treated area) for 2 weeks post treatment:** the area becomes sensitive and needs to heal, you can cause unwanted irritation, burns and permanent discolouration if you do not properly care for the treated area as instructed.
- **Do not exfoliate area** for 5 days post treatment due to increased sensitivity as described above.
- **Only have luke-warm showers for the 24 hours post treatment** (do not have hot showers and avoid heat).
- To assist with keeping appointments on time, **please arrive a couple of minutes early for your appointments;** as we are quite often heavily booked, if you do arrive late we may need to reschedule your appointment for another day.
- **WE NEED TO KNOW** if you change medications or medical treatments during your course of hair reduction treatments, you will need to postpone treatments if you are on medication that causes sensitivity to the sun or stimulates hair growth
- The **average number of treatments required is 5**. People undergoing treatments who have dark and/or tanned skin, and/or a hormonal condition usually require more treatments. A 70% - 90% reduction is the target. Individual results vary.
- **Elos Skin Rejuvenation treatments cannot prevent future damage**, therefore **POST-TREATMENT CARE IS ESSENTIAL**. In the case you are treating an actual condition, such as acne or rosacea, you will require regular treatments to maintain the condition.
- **As a courtesy**, we send an **SMS 3 business days prior to your appointment to confirm** the time is still suitable for you. Please ensure that you **respond ASAP to ensure you do not forfeit your deposit**. We also recommend you store 3356 7299 into your mobile phone so you can see if you have had a missed call from Medi Light and for easy reference in the instance you do need to reschedule an appointment.

ESSENTIAL AFTER CARE / SKIN PROTECTION

Post Laser Lotion (available at reception \$39)

The Post Laser Lotion contains Vital Copper which has been **clinically proven to sooth treated areas, promote immediate healing solutions, decrease healing time as well as reduce any unwanted side effects**

USE: apply a small amount of the Post Laser Lotion to the treated area 2-3 times per day for up 5 days post each treatment.

IF YOU HAVE A STRONG REACTION TO YOUR TREATMENT OR EXPERIENCE IRRITATION:

Please call us immediately on 3356 7299. Along with aftercare advise, you may require the Hydrating Gel (\$39) to be used in addition to the Post Laser Lotion, also available at reception.

Broad-spectrum SPF 30+ Sunscreen containing Zinc and/or Titanium (available at reception)

Protection from harmful UV rays to the treated area for the following two weeks post treatment **is essential**. Your skin has been exposed to intense light and is more sensitive, it is vital you **cover up with an SPF 30+ Broad-spectrum Zinc or Titanium** based sunscreens, which offer the best protection for your skin.

RESERVATION POLICY

To secure appointments, a 30% deposit of the total treatment cost is required at the time of booking.

We require **2 BUSINESS DAYS NOTICE** to cancel or reschedule any appointment/s. In the instance that you do not turn up, reschedule or cancel any appointment for any reason (even if you have not confirmed the appointment) with less than 2 business days notice, you will forfeit your 30% deposit.
